EXPERIENCE

Junior Web Developer
Ferraz Creative
Sept 2020 - Present
- Freelance Developer
- Developed/Designed websites for clients
- PHP for WordPress
- HTML, CSS, JavaScript

SKILLS

Technical Competencies
JavaScript · SQL · C++
HTML5 · CSS · PHP · Sketch

Technical Familiarities
Java · React · Python
Node.js · Dart · D3.js

Web Development

UI Design

GitHub Version Control

WordPress Development

Software Quality Testing

Flutter Development

EDUCATION

Bachelor of Science, Computer Science
Ontario Tech University
Sept 2016 - Dec 2020 Graduated

General Arts and Science, Science and Engineering Prep
Durham College
Sept 2014 - Aug 2015 Graduated

PROJECTS

Github User Finder `JavaScript` `React.js`
July 2020
A web app that searches for GitHub users. Implemented with the Github API to get the users information including username, website, their GitHub URL and their most recent repositories. Project focused on learning React fundamentals.

COVID-19 Visualization `HTML` `CSS` `JavaScript` `D3.js`
Jan 2020 - Apr 2020
With the recent outbreak of 2019 Novel Coronavirus (COVID-19), studying the pandemic can have considerable implications on how we approach similar outbreaks in the future. This project takes in a .CSV file from the Johns Hopkins University Center for Systems Science and Engineering team and visualizes the world map to show weekly cases. Project focuses on showing users a clear visualization of the virus spread.

Got Next - Mobile Web Design `HTML` `CSS` `JavaScript` `Sketch App`
Sept 2019 - Dec 2019
A web design that explored human behaviours with interactive objects and a human-centred approach to the design. Formal human computer interaction research and theories applied to project. Got Next focused on helping individuals connects through sports.
